Dr. Muth provided the Board with an overview of the Communicable Disease and Vital Statistics Reports for October, 2022. A copy of the reports are on file in the Linn County Clerk’s Office in the Commissioners’ Staff File.

Commissioner Sprenger asked Dr. Muth about the “Food and Waterborne Illnesses”, specifically, the contributing factor of being around dogs and/or chickens and how the factors and statistics were used to impact the health and safety, as well as, mitigate infection. Dr. Muth stated that he did not have an easy answer to the questions but recommended that she speak with Shane Sanderson, Linn County Public Health Program Manager. Commissioner Sprenger stated that Mr. Sanderson was in the meeting and she would ask him.

B. Environmental Health Monthly Activity Report – Shane Sanderson, Linn County Public Health Program Manager.

Mr. Sanderson provided the Board with an overview of the Environmental Health Monthly Activity Report for October, 2022. A copy of his report is on file in the Linn County Clerk’s Office in the Commissioners’ Staff File.

In Mr. Sanderson’s report, he mentioned that there were two food service facilities that failed to comply with their inspections. He stated his office was implementing a new procedure in regard to the “failure to comply” and including all facilities with critical violations. The new procedure included photo documenting the violation so, if it was ever called into question, the department would have that information in their record. He stated that this reinforced the integrity of their process. Commissioner Nyquist stated that he did not like the new procedure and he stated that the relationship with business owners was very good; we’ve always worked to educate the owners. Commissioner Nyquist stated that taking pictures could be construed as a change in the status and the tone of the licensee. He then asked Mr. Sanderson if there had been a dispute between the licensees about what the inspector found. Mr. Sanderson stated, yes, quite often when there is a licensee not present for the inspection or lives in a different city. He stated that he would be comfortable with keeping the process at it was. A lengthy discussion followed regarding this matter.

Mr. Sanderson stated that he appreciated the discussion; it helped him understand the Board’s vision and priorities. Mr. Sanderson continued with the rest of his update.

Commissioner Nyquist asked, in regard to the earlier discussion, if Mr. Sanderson was aware of any food borne illness or outbreak in the County over the past five years that were related to a restaurant licensee. Mr. Sanderson replied that there was one suspected but the State never identified the cause. Commissioner Nyquist stated that, with hundreds of licensees in Linn County, there was only one suspected outbreak with one licensee in the past five years and it was unsubstantiated. Mr. Sanderson stated that was correct. Commissioner Nyquist stated that the County should keep their relationship with the licensees in the context as it is.
In regard to the previous question asked by Commissioner Sprenger to Dr. Muth regarding how the County mitigated the possible infection from dogs and chickens, Commissioner Tucker explained that twice in the past years the County had asked OSU and the Public Health staff to prepare articles on the handling of chicken. Discussion followed.

Mr. Sanderson stated the way to stop transmission and exposure would be to cook at the proper temperature and washing hands before eating. He stated that he would be opened to compiling data that would help in determining what could be done in regard to education to intervene between the transmission path and exposure. Public education around thanksgiving could be helpful. He stated that he would be happy to pursue messaging grants to help get the word out.
